

## Key Information Document

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

#### Mediolanum Double Target Growth and Income 2030/1

Mediolanum International Life dac (MIL, the Company) <https://www.mildac.ie> Call +39 0290491625 for more information. Milan Branch Address: Palazzo Meucci, Via Ennio Doris, 20079 Basiglio Milano 3. Central Bank of Ireland is responsible for supervising Mediolanum International Life DAC in relation to this Key Information Document. This PRIIP is authorised in Ireland. KID production date: 26/03/2024

**You are about to purchase a product that is not simple and may be difficult to understand.**

### What is this product?

**Type:** This is a single-premium, fixed term, unit linked class III insurance investment product.

**Term:** This Product has a fixed term Maturity Date of 30/06/2030.

**Objectives:** Mediolanum Double Target Growth and Income 2030/1 (the "Product") aims to provide a unit value at maturity which is at least equal to the initial unit value, and for the duration of the Contract, the distribution of periodic amounts, and seeks to deliver capital appreciation on the Maturity Date. In addition, the Product provides a life insurance benefit. The Product is designed to provide a participation, at maturity, to any positive performance of a selected basket of equity indices. The participation to any positive performance is not guaranteed and equity markets, by their nature, are volatile. The Product does not in any way guarantee conservation of the initial capital invested, which may be considerably lower at maturity. Similarly, payment of the periodic amounts are not guaranteed and may vary at the discretion of the Company.

This Product will be fully invested in an Internal Fund. At the date of this document, the Internal Fund mainly invests in a UCITS Fund which invests in fixed income securities and Financial Derivative Instruments (FDI's). The Product cannot ordinarily be terminated unilaterally by the Company unless certain events beyond the Company's control occur which may materially impair the ability of the Internal Fund to achieve its investment objectives or to pursue its investment policy.

This Product is exposed to the credit risk of Italian Government bonds, and any default by the Italian Government may cause a substantial loss of your investment. The Product may also be exposed to credit risk of Italian financial institutions (which may include, Unicredit S.p.A, Banco BPM S.p.A,

Mediobanca S.p.A, Intesa Sanpaolo S.p.A, and Assicurazioni Generali S.p.A). The value of your investment will fluctuate during the life of the Product and you may receive back less than invested. You should only invest in the Product if you plan to hold this Product for its full term. Early surrender is possible after an initial holding period of six months but will incur additional charges.

**Intended retail investor:** The product is suitable for retail investors with a basic knowledge of financial instruments who intend to hold the investment until maturity by accepting the risk indicated in the Risk Indicator section, aware that there is no guarantee of protection of invested capital with the aim of obtaining capital appreciation through participation in the stock market. The Product is also suitable for professional investors and eligible counterparties. The Product represents a "buy-and-hold" investment and may not be suitable for investors who wish to withdraw capital before the maturity date and are unable to sustain any loss of the Amount invested.

**Insurance benefits and costs:** If at the date of subscription, the Insured Person is equal or less than 75 years of age (i.e., the Insured Person has not turned 76 years of age yet) , the amount payable will be equal to 101% of the greater of the total value of premiums paid or the total value of Internal Fund units referred to in the Contract.

If at the date of subscription, the Insured Person is more than 75 years of age (i.e., the Insured Person has turned 76 years of age), the capital payable will be equal to 101% of the total value of the Internal Fund units referred to in the Contract.

The product manufacturer does not charge any premium for the biometric risk coverage. Therefore, there are no insurance costs charged to the client that impact investment returns.

### What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes you keep the product for 6 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Historical data, such as those used in the calculations, may not be a good guide to the future and the risk indicator may change over time, as a result.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 6 years Example Investment: € 10,000			
Insurance Premium [€ 0]			
		If you exit after 1 year	If you exit after 6 years
<b>Survival Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>€ 6,440</b>	<b>€ 8,060</b>
	Average return each year	-35.60%	-3.40%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>€ 9,840</b>	<b>€ 10,870</b>
	Average return each year	-1.60%	1.40%
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>€ 10,120</b>	<b>€ 12,530</b>
	Average return each year	1.20%	3.70%
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>€ 10,650</b>	<b>€ 16,160</b>
	Average return each year	6.50%	8.00%
<b>Death scenarios</b>			
<b>Insured event</b>	<b>What your beneficiaries might get back after costs</b>	<b>€ 10,540</b>	<b>€ 12,660</b>

The figures shown include all the costs of the product itself, (where applicable) but may not include all the costs that you pay to your advisor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

These scenarios do not assume any default of Italian sovereign. If such a default were to occur, you would lose some or all of your investment.

### What happens if the issuer is unable to pay out?

In case of insolvency of Mediolanum International Life dac., the assets held to cover the obligations arising out of insurance contracts will be used to satisfy the claims arising from these contracts, with priority over all other creditors of the Company, net of the expenses necessary for the liquidation procedure. It is however possible that as a result of the insolvency of Mediolanum International Life dac., the investor / beneficiary may lose part or all of the value of their investment. There is no public or private guarantee scheme that can compensate for all or part of any losses.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed the product performs as shown in the moderate scenario. The costs may vary on the basis of the underlying investment options.

— EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 6 years
Total costs	€ 420	€ 820
Annual cost impact (*)	4.2%	1.4% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.1% before costs and 3.7% after costs.

#### Composition of costs

Once-off costs upon entry or exit at maturity.		Annual cost impact if you exit after 6 years
Entry costs	— % of the amount you pay in when entering this investment	0.0%
Exit costs	— We do not charge an exit fee for this product if held until maturity	NA

Ongoing costs taken each year		
Management fees and other administrative or operating costs	% of the value of your investment per year.	1.4%
Transaction costs	% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.0%

## How long should I hold it and can I take money out early?

### Recommended holding period: 6 years

After an initial holding period of six months from the start date of the contract, this product may be totally surrendered by the investor (no partial surrenders allowed) subject to payment of early surrender penalties. The product is a buy-and-hold investment, and you may get back significantly less than the original invested amount if you redeem early.

To achieve the goals of this product, we recommend that you keep your investment up to the end of the recommended holding period. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon; and, any redemption prior to this term may compromise the investment performance.

### How can I complain?

If you are not satisfied with an aspect of our service and wish to raise a complaint, you can write to the Customer Service Department of our Italian branch, Mediolanum International Life dac, Succursale di Milano, Ufficio Reclami, Via Ennio Doris 15, 20079 Basiglio, Milano 3, submit a fax to 02/90492649, or submit your complaint to the email address: [ufficioreclami@mediolanum.it](mailto:ufficioreclami@mediolanum.it), certified email: [ufficioreclami@pec.mediolanum.it](mailto:ufficioreclami@pec.mediolanum.it).

If you are not satisfied with the outcome of the feedback received to your complaint, you may address further requests to the Distributor, or your Intermediary, or contact the relevant competent Supervisory Authorities where more detail can be found at <https://www.mediolanuminternationallife.it/reclami>, as well as in the section "How can I submit the complaints and resolve disputes?" of the DIP Aggiuntivo IBIPS.

### Other relevant information

The product has a minimum premium payment of €10,000 (additional payments are not allowed). For further information, including more detailed risk and surrender costs disclosures, please refer to the 'General Terms and Conditions' and 'Special Conditions', which are mandatory documents and must be provided to you, the Policyholder, in addition to this Document. The documents are available on the Company website.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
