Product

Mediolanum Life Plus 2023

Mediolanum International Life dac (MIL, the Company) <https://www.mildac.ie> Call +34 932 535 542 for more information. Barcelona Branch Address: Agustina Saragossa No. 3-5, 08017, Barcelona. Central Bank of Ireland is responsible for supervising Mediolanum International Life DAC in relation to this Key Information Document. This PRIIP is authorised in Ireland.

KID production date: 24/01/2023

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: This is a single-premium, fixed term, Index Linked life insurance product

Term: This product is a 5 year fixed term product. The Priips manufacturer cannot terminate the product unilaterally.

Objectives: The objective of the Mediolanum Life Plus 2023 product (the “Product”) is to deliver income over the life of the product and return of a capital at least equal to the capital initially invested, whilst also providing specific insurance benefits at individual policy level over the term as indicated in the recommended holding period. There are no guarantees that the objectives will be met. The Premium Paid once deducted the Internal Loadings (Invested Capital) will be invested in units of a MIL Internal Fund whose performance is linked to the performance of a Structured Asset. This Structured Asset is constructed out of a bond issued by the Italian Government, a swap issued by JP Morgan SE and an option issued by JP Morgan SE and is linked to the performance of the EUROSTOXX Select Dividend 30. Therefore, the investor is fully exposed to the risk that the issuers of the financial assets that conform the Structured Assets breach their payment obligations in case of default or restructuring. The Structured Asset is designed to have a final value at Maturity of:

- at least equal to the Premium Paid plus a fixed coupon of 2% of such amount; and
- additionally, if on the Annual Observation Dates of the Structured Asset, the closing price of the Index is above or equal to the closing price of the Index at the First Observation Date (this is two (2) Business Days as from the Effective Date of the contract), the distribution of an annual coupon of 5.5% of the Premium Paid will be paid.

The Product also offers a “memory feature” that means that, if in the Annual Observation Dates mentioned in the Special Conditions, the closing price of the Index is above or equal to the closing price of that Index on the First Observation Date, the Insurance Entity will pay out the sums of unpaid annual coupons of the previous years where the price of the Index did not meet this requirement. There is a possibility of a substantial loss on your investment. The maximum loss is the full amount invested and the maximum gain is a coupon of 5.50% multiplied by four and a coupon of 2.00% of the Premium Paid. This means that the maximum loss is significantly more than the maximum gain. In addition, the payoff of the Product depends on the performance of the Index and of the value of the financial assets that conform the Structured Assets.

The Structured Asset is not guaranteed by Mediolanum International Life Dac and, in case of default or restructuring of either the issuing counterparties, the Italian Government and JP Morgan SE, of the financial assets that conform the Structured Asset, you may lose part or all of your investment.

Intended retail investor: This investment option has been developed for distribution in Spain through Banco Mediolanum, S.A. family banker advisory network and intended for retail investors with informed and advanced knowledge of financial instruments who can accept the risk noted in the Risk Indicator section, who understand that this product contains complex securities and that there is no guarantee that the objective to deliver income over the life of the product and return of capital at least equal to the capital initially invested will be met. The product is also compatible to be offered to professional investors and eligible counterparties.

Insurance benefits and costs: The benefit amount in the event of death of the Insured Person will be the greater of either: a) 101% of the Single Premium contributed or b) 101% of the Value of the Units.

The product manufacturer does not charge any premium for the biometric risk coverage. Therefore, there are no insurance costs charged to the client that impact investment returns. The maturity date of the product is 15/05/2028.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Historical data, such as those used in the calculations, may not be a good guide to the future and the risk indicator may change over time, as a result.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 5 years Example Investment: € 10,000			
Insurance Premium [€ 0]			
		If you exit after 1 year	If you exit after 5 years
Survival Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€ 5,410	€ 9,970
	Average return each year	-45.86%	-0.06%
Unfavourable	What you might get back after costs	€ 8,450	€ 10,170
	Average return each year	-15.53%	0.34%
Moderate	What you might get back after costs	€ 9,660	€ 10,720
	Average return each year	-3.42%	1.40%
Favourable	What you might get back after costs	€ 11,300	€ 12,360
	Average return each year	13.03%	4.33%

Death scenarios			
Insured event	What your beneficiaries might get back after costs	€ 10,100	€ 10,820

The figures shown include all the costs of the product itself, (where applicable) but may not include all the costs that you pay to your advisor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavorable, moderate and favorable scenarios are the result of bootstrapping simulation, corresponding to the 10th, 50th and 90th percentile of the statistical distribution.

What happens if the issuer is unable to pay out?

In case of insolvency of Mediolanum International Life dac., the assets held to cover the obligations arising out of insurance contracts will be used to satisfy the claims arising from these contracts, with priority over all other creditors of the Company, net of the expenses necessary for the liquidation procedure. It is however possible that as a result of the insolvency of Mediolanum International Life dac., the investor / beneficiary may lose part or all of the value of their investment. There is no public or private guarantee scheme that can compensate for all or part of any losses.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed the product performs as shown in the moderate scenario. The costs may vary on the basis of the underlying investment options.

— EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€ 653	€ 653
Annual cost impact (*)	6.5%	1.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.7% before costs and 1.4% after costs.

Composition of costs

One-off costs upon entry or exit.		Annual cost impact if you exit after 5 years
Entry costs	— % of the amount you pay in when entering this investment	1.3%
Exit costs	— We do not charge an exit fee for this product.	NA
Ongoing costs taken each year		
Management fees and other administrative or operating costs	% of the value of your investment per year.	0.0%
Transaction costs	% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.0%

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

After an initial holding period ending at the 15/05/2028 (excluded), this product may be totally surrendered by the client (no partial surrenders allowed). The product is a buy-and-hold investment and you may get back significantly less than the original invested amount if you redeem early.

To achieve the goals of this product, we recommend that you keep your investment up to the end of the recommended holding period. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon; and, any redemption prior to this term may compromise the investment performance.

How can I complain?

If you are not satisfied with an aspect of our service and wish to raise a complaint, you can write to the Customer Service Department of our Spanish branch, Mediolanum International Life dac, Barcelona Branch, Agustina Saragossa, No. 3-5, 08017, Barcelona, submit a fax to 93 280 63 75 or submit your complaint to the email address millse@millse.info.
