

### Performance Scenarios

Performance scenarios depend on the investment option chosen. Please refer to the relevant 'Key Information Document - Annex' to view the possible performance scenarios.

### What happens if the issuer is unable to pay out?

In case of insolvency of Mediolanum International Life dac., the assets held to cover the obligations arising out of insurance contracts will be used to satisfy the claims arising from these contracts, with priority over all other creditors of the Company, net of the expenses necessary for the liquidation procedure. It is however possible that as a result of the insolvency of Mediolanum International Life dac., the investor / beneficiary may lose part or all of the value of their investment. There is no public or private guarantee scheme that can compensate for all or part of any losses.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for 3 different holding periods. They include potential early exit penalties. The figures assume you invest Euro 10,000. The figures are estimates and may change in the future.

#### Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment [€ 10,000]			If you cash in after 1 year	If you cash in after 5 years	If you cash in after 10 years
Total costs	Min		€ 801.46	€ 2,196.43	€ 4,219.14
	Max		€ 822.07	€ 2,445.84	€ 5,262.65
Impact on return (RIY) per year	Min		8.47%	4.26%	3.54%
	Max		8.87%	4.51%	3.81%

#### Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

The costs vary on the basis of the underlying investment option. The details of the underlying investment options are provided in the 'Key Information Document - Annex'.

This table shows the impact on return per year				
One-off costs	Entry costs	Min	0.37%	The impact of the costs you pay when entering your investment. This includes the costs of distribution of your product.
		Max	0.42%	
	Exit costs		0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs		0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	Min	3.18%	The impact of the costs that we take each year for managing your investments.
		Max	3.39%	

### How long should I hold it and can I take money out early?

#### Recommended holding period: 10 years

The recommended holding period for each investment option is determined based on the risk of the investment and the characteristics of the contract. The recommended holding period specified above takes into account the investment option featured in the product with the longest holding period. The Investor has the right to totally or partially redeem the contract on any valuation day, collecting the redemption value calculated based on the value of the shares of the Internal Fund invested in on the date the request is received by the Company, without any redemption fee being applied. We recommend that you hold the investment until the recommended time horizon in order to fulfil the objectives of this product. This product might not be suitable for investors who plan to redeem their contract before the end of the

recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon; and, any redemption before that date may compromise the investment performance. The bonus payment, if applicable, will be reduced in proportion to the redemption amount.

### How can I complain?

If you wish to raise a complaint regarding the product, you can write to the Customer Service Department of our Italian branch, Mediolanum International Life DAC, Milan Branch, Complaints Office, Via F. Sforza 15, 20079 Basiglio, Palazzo Meucci Milano 3, Milano, submit a fax to: 02/90492649 or submit your complaint to the email address : [ufficioreclami@mediolanum.it](mailto:ufficioreclami@mediolanum.it), certified email: [ufficioreclami@pec.mediolanum.it](mailto:ufficioreclami@pec.mediolanum.it). Any complaints regarding the person who has recommended and / or offered the product can be forwarded in writing to Banca Mediolanum SpA, Complaints Department, Via F. Sforza 15, 20079 Basiglio, Milan 3 - Milan, fax number 02/90492649, e-mail at the address: [ufficioreclami@mediolanum.it](mailto:ufficioreclami@mediolanum.it), [ufficioreclami@pec.mediolanum.it](mailto:ufficioreclami@pec.mediolanum.it). <https://www.bancamediolanum.it/reclami-ricorsi-conciliazione>. Further information is available on the Company's website <https://www.mediolanuminternationallife.it>.

### Other relevant information

The maximum age of the insured party is 80 years at entry.

The product has a minimum premium payment of €10,000.

The client may also elect to subscribe to the 'consolida' service, an automated service offered to consolidate and protect previous positive performance.

This product may pay a bonus subject to meeting conditions laid out in the product documentation.

All investment options are denominated in Euro. However, the investment options may hold underlying investments across regions and as a result may be exposed to currency risk.

Performance scenarios are based on the assumption that any income is reinvested. Please check with your advisor if your investment option intends to pay out or reinvest any income.

For further information, including more detailed risk disclosures, please refer to the 'DIP Aggiuntivo IBIP' and 'General Terms and Conditions', inclusive of 'Glossary', which are mandatory documents and must be provided to the Contractor, as well as this Document.

For information regarding the Investment Options please refer to 'Regolamento dei Fondi', which is available upon request.

The updated version of the documents are available on the Mediolanum International Life Ltd website, [www.mediolanuminternationallife.it](http://www.mediolanuminternationallife.it) and on the Distributor's website.

# Mediolanum Premium Plan 2.0 (Single Premium) - Key Information Document - Annex

## Investment Option: Premium Plan 2.0 Fund 1

### What is this investment option?

**Investment Objectives:** The investment objective of this investment option is to deliver capital growth over the term as indicated in the recommended holding period. It generates market exposures to various asset classes as described below mainly by investing in a variety of funds:

- between 85% and 100% in global equities (listed shares of companies) with a primary focus on shares listed in developed market economies and smaller exposures to shares listed in emerging market countries;
- between 0% and 15% in global fixed income assets, (bonds issued by both developed and emerging market governments and/or companies). Invested fixed income assets will primarily be focussed on developed investment grade rated securities (rated by a generally recognized international rating agency) with smaller exposures to sub-investment grade or unrated securities; and
- between 0% and 15% in cash and money market instruments (short term debt).

The mutual funds in which this investment option is invested will be actively managed UCITS (mutual funds based on harmonised 'EU' regulatory rules and investment protection requirements). These mutual funds may also:

- generate indirect market exposures through investing in financial derivative instruments (FDIs), whose performance is linked to that of an underlying security(s) or asset class(es);
- engage in short-term secured lending of their securities to generate additional income; and
- charge performance fees.

**Intended retail investor of investment option:** This investment option has been developed for distribution in Italy through Banca Mediolanum's Family Banker Advisory Network and is intended for retail investors (including those with a basic knowledge of financial instruments) who can accept the risk noted in the Risk Indicator section.

### What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes you keep the product for 10 years.  
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact the capacity of issuer to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

#### Performance Scenarios

**Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.**

This table shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest Euro 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
